LYRA CRUISE COLLECTION

The new art of sailing

Named for the constellation long associated with brilliance, harmony and artistic mastery, Lyra Cruise Collection brings the same spirit to the storied waters of Ha Long and Lan Ha Bay.

Across its two vessels, Capella Cruise and Lyra Grandeur, Vietnamese heritage is reimagined through artful design, while state-of-the-art facilities and thoughtfully curated experiences create a refined balance of relaxation, recreation and cultural discovery, offering a distinctive way to experience the beauty and heritage of Vietnam.

Comfort and safety are integral to every journey. Both vessels are built by VISEC, a shipbuilder within the same ownership group with more than 20 years of expertise in international cruise-vessel design and construction. This close relationship brings together reliability, craftsmanship and eco-conscious engineering from the first drawing to life on the water.

The Destination

HA LONG BAY - CAT BA ARCHIPELAGO

Ha Long Bay and the Cat Ba Archipelago, including Lan Ha Bay, together form a UNESCO World Natural Heritage Site. Sculpted by water over millions of years, the seascape is recognised as the world's most extensive and best-known example of marine-invaded tower karst. Clustered conical peaks and isolated limestone towers rise directly from the sea, creating a landscape of exceptional beauty and remarkable biodiversity.

BEYOND THE FAMILIAR ROUTE

Years spent surveying and navigating these waterways allow Lyra Cruise Collection to follow a quieter course through Ha Long and Lan Ha Bay. Beyond the familiar routes and crowded anchorages, less-travelled channels lead between limestone towers to secluded corners of the bays, revealing a side of the landscape reserved for those who venture further.

CRUISE HIGHLIGHTS

The Design

HERITAGE, LIVING AND RETOLD

Lyra Cruise Collection does not keep the past behind glass. Drawing on Vietnam's cultural and artistic inheritance, each vessel gives tradition new life through a contemporary design language, enriched by local craftsmanship, original artworks and considered details.

Soul of Place

Indochine architecture and the natural forms of the bay come together in Lyra's design. Thoughtfully reinterpreted, their proportions, textures and details shape spaces that feel rooted in place yet distinctly of the present.

Hand of Tradition

Hand-finished detail runs through the interiors. Lacquer finishes, woven rattan, hand-glazed ceramics, and mother-of-pearl inlays reflect the mastery of local artisans and the richness of Vietnamese craftsmanship.

Art of Culture

Public spaces are places of artistic expression. Curated artworks, cultural displays and dedicated galleries introduce guests to Vietnam's creative spirit.

The Accommodation

SANCTUARIES IN THE LANDSCAPE

Inviting stillness and ease, Lyra's suites blur the boundary between interior and landscape. Generous proportions with full-height windows, private balconies or terraces and ocean-view bathtubs create space to retreat in privacy, with the limestone horizons of the bay ever present.

The Experience

PLEASURES OF LIFE ABOARD

Life on board unfolds outwards with ease – close to the water, open to light and air. Take the signature eight-metre waterslide straight from deck to emerald water, paddle through hidden lagoons or swim in the inflatable sea pool.

At a slower pace, the open-air complex brings together an infinity-edge aft pool, heated Jacuzzi and Nordic-style sauna. Here, time is given over to warmth, water and the pleasure of being present.

As evening settles over the bay, the energy of the day finds a different rhythm: games and friendly rounds at the Poker Club, a movie night, traditional squid fishing beneath the stars or quiet renewal at the spa.

Extraordinary in their variety, the spaces on board each have their own atmosphere and purpose, making time on the ship as meaningful as the destination itself.

The Culture

DEPTH OF DISCOVER

At Lyra Cruise Collection, cultural exploration is never left to chance. Every excursion is curated and led by the ship's own knowledgeable crew, whose familiarity with the bays brings local insight, continuity and a personal dimension to each experience.

Step ashore into a world moving at a different pace. Visit traditional fishing villages, glide through ancient water caves by bamboo boat or spend time on secluded beaches. Back on board, the connection continues through cooking classes, tea ceremonies and tastings of local wine.

Together, these encounters reveal the living culture of the bays – authentic in character, thoughtfully guided and seamlessly woven into the journey.
